## BACKGROUND ON #ARC

The ASEF Regional Conference on Higher Education (ARC)<sup>1</sup> is the **Official Dialogue Partner of the ASEM Education Ministers’ Meeting (ASEMME)** and the only bi-regional multi-stakeholder dialogue platform for university and student leaders, policy makers and ministers to discuss higher education issues and shape the education landscape in Asia and Europe.

Its results, including policy recommendations, feed into the ASEM Education Process, and contribute to achieving the Sustainable Development Goals (SDGs).

### The mission of ARC is to

**Facilitate exchange of good practices and networking** among universities and student organisations in Asia and Europe

**Inspire stakeholders to take action** on issues of joint concern in Asia and Europe

**Inform and influence** policymakers of the 51 ASEM Partner Countries

## TOPIC OF #ARC8 CONFERENCE

The 17 Sustainable Development Goals are a universal call for action to shape a better future for all. Universities and their students have a key responsibility to tackle complex societal challenges of our times, manifested in these Goals. While recognising the outstanding results of universities contributing to the SDGs, the recent COVID-19 pandemic has highlighted how fragile the achievements on the goals are. According to the Sustainable Development Goals Report 2020<sup>2</sup>, COVID-19 is reversing decades of progress on poverty, healthcare and education. Green and equitable economic recovery is not possible without innovative tertiary education and a **renewed commitment to inclusion in tertiary education**, if we are to deliver on our promise on leaving no one behind.

In July 2020 UNESCO invited higher education institutions to put the values of inclusion and equity on their recovery roadmap, develop new partnerships, inclusive online learning solutions, and improve policies together with national officials and international organisation in the next decade.<sup>3</sup>

<sup>1</sup> Formerly called the ASEF Rectors’ Conference and Students’ Forum (ARC). From ARC8 onwards, the project is called ASEF Regional Conference on Higher Education, merging the Rectors’ Conference and Students’ Forum for greater synergies and impact.

<sup>2</sup> [Sustainable Development Goals Report 2020](#). Published by UN in July 2020, New York.

<sup>3</sup> [Speech of Ms Stefania Giannini, Assistant Director-General for Education](#), UNESCO at the Higher Education Sustainability Initiative Special Event, 8 July 2020.

The ASEM Education Ministers also highlighted at their last Ministerial Meeting that the ASEM Education Process should aim at ensuring inclusion and equality in education by building comprehensive education systems that are accessible to all.<sup>4</sup>

In accordance with these calls, ARC8 invites Asian and European higher education and student leaders to leverage on the current COVID-19 disruption and make inclusion and diversity central values of their paradigm shift. Titled “**Outlook 2030: Inclusive and Diverse Higher Education in Asia and Europe**”, ARC8 will explore how universities and students can foster inclusion and diversity in the final decade for the Agenda2030, and raise awareness on potential risks and opportunities along **4 subthemes**:

- 1 | Inclusive Learning and Teaching in a Digital World**
- 2 | Inclusive and Flexible Lifelong Learning Pathways**
- 3 | Inclusive International Mobility of People and Knowledge**
- 4 | Equitable Access and Success in Higher Education**

The theme aligns with the priority areas of the [ASEM Education Process](#)<sup>5</sup> and the upcoming 8<sup>th</sup> ASEM Education Ministers’ Meeting (ASEMME8). In addition to ARC8, ASEF will organise several spin-off activities focusing on disseminating findings of the ARC8 Outlook Report 2030 and build capacity for local and regional stakeholders.

## OBJECTIVES OF THE #ARC8 CONFERENCE

The objectives of this event are as follows:

- Officially **launching the ARC8 Outlook Report 2030: Inclusive and Diverse Higher Education in Asia and Europe**
- **Engaging regional partners and stakeholders** to review risks and opportunities for inclusion in higher education in the next decade
- **Discussing the recommendations of the report** for policy makers and communities of higher education practitioners to foster greater inclusion in their work
- **Networking** among participants to find new partners in creating a more equitable, inclusive, and quality higher education by 2030

## OUTLOOK REPORT 2030: INCLUSION AND DIVERSITY IN HIGHER EDUCATION

Prior to the ARC8 conference, a selected group of experts, university and student organisation leaders collaborated for over 8 months online to prepare an **ARC8 Outlook Report 2030: Inclusive and Diverse Higher Education in Asia and Europe** along the subtopics of ARC8.

The Outlook Report outlines emerging issues that could grow into major challenges and/or opportunities in the coming 10 years related to inclusion in higher education. Inputs for the report came from an in-depth consultation process and from previous research done by Asian and European stakeholders.

The Report consists of 4 chapters analysing the future of inclusion from different perspectives, and makes **two sets of recommendations** for:

- **for ASEM policy makers**, to serve as a basis for policy dialogues and as an input to their discussions on the ASEM Education Strategy and Action Plan 2030.
- **for ASEM university leaders**, to outline capacity building directions for institutions and inspire joint action to make universities more inclusive in the next decade.

<sup>4</sup> [Conclusions by the Chair. 7<sup>th</sup> ASEM Education Ministers’ Meeting \(ASEM ME7\)](#), 15-16 May 2019, Bucharest, Romania titled “Connecting education: inclusion, mobility and excellence in support of the Sustainable Development Goals.”

<sup>5</sup> The 4 core priorities of the ASEM Education Process are the following: 1) Quality Assurance and Recognition, 2) Engaging Business and Industry in Education, 3) Balanced Mobility, 4) Lifelong Learning including TVET. In 2019, “Sustainable development” and “Digitalisation” were adopted by the ASEM Education Ministers as horizontal and crosscutting priorities on top of the 4 core priority areas.

As ARC8 is the **Official Dialogue Partner of the ASEM Education Ministers’ Meeting (ASEMME)**, members of the ARC8 Expert Group will be invited to engage in policy dialogues with ASEM policy makers based on their findings and recommendations of the Outlook Report 2030. ARC8 Experts will also contribute to the **ASEM Education Senior Officials’ First Meeting (SOM1)** on 14-15 September 2021 and to the **8th ASEM Education Ministers’ Meeting (ASEMME8)** towards the end of the year hosted by Thailand.

**EXPECTED PARTICIPANTS**

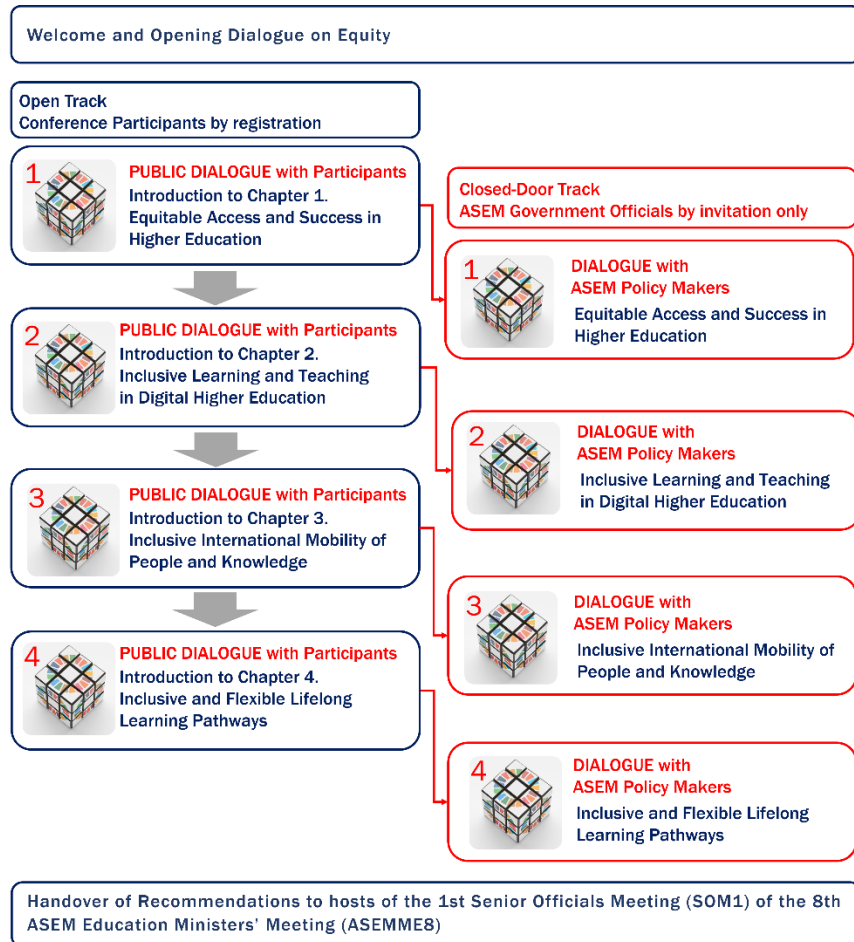

The conference invites all stakeholders in higher education development in Asia and Europe to register, especially:

- members of the higher education community, university leaders, managers, academics based in Asia and Europe
- education policy makers, ASEM Education Ministers, ASEM Education Senior Officials (SOMs) or their representatives and colleagues from the 53 ASEM Partners
- representatives of national education agencies and other stakeholders of the official ASEM Education Process
- students and leaders of various student organisations
- representatives of Non-Governmental Organisations (NGOs), International Organisations (IOs) and higher education business representatives from the 53 ASEM Partners

The event is **free of charge**. Registration confirmation is on a **first come first served basis** up to 500 slots. The event will be live streamed as well.

The conference will have a **closed-door policy discussion component**, which is designed for an interactive discussion between ARC8 experts and government officials of the 51 ASEM countries. This component is **for policy makers by invitation only**.

## ORGANISED BY

### Asia-Europe Foundation (ASEF)

ASEF is an intergovernmental not-for-profit organisation located in Singapore. Founded in 1997, it is the only institution of the Asia-Europe Meeting (ASEM). ASEF promotes understanding, strengthens relationships and facilitates cooperation among the people, institutions and organisations of Asia and Europe. ASEF enhances dialogue, enables exchanges and encourages collaboration across the thematic areas of culture, education, governance, sustainable development, economy, public health and media.

The work of ASEF’s Education Department (ASEFEdu) focuses on the themes digitalization & inclusion, and hence, contributes with its projects to the achievement of the UN 2030 Agenda and the 17 Sustainable Development Goals (SDGs), especially to Goal4: *ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all*.

For more information, please visit the [www.ASEF.org](http://www.ASEF.org).

## VISUAL CONCEPT

*The United Nations General Assembly identified 17 Sustainable Development Goals (SDGs) that encompass many aspects of contemporary society. The goals serve as globally recognised standards that call upon stakeholders across all sectors, including education, to implement them by 2030. Inclusion is a horizontal element of the SDGs, a prerequisite to achieve them. Achieving the SDGs, however, is a complex interplay that requires both strategic thinking as well as creative and innovative methods. Solving the Magic Cube - one of the most famous educational toys ever - resembles this multifaceted process: it takes not only analytical skills and imagination but also hands-on action in solving the puzzle to get all the colours, sides and patterns right within the given time. Like the pieces in a cube, the SDGs and issues of inclusion are interconnected and any decision to move towards a certain direction has an impact on the overall pattern and outcome.*
