His Excellency Marat Pavlov
Ambassador
Embassy of the Russian Federation
Makati City

Dear **His Excellency Pavlov**:

The National Academy of Science and Technology, Philippines (NAST PHL), an attached agency to the Department of Science and Technology, will hold its **44th Annual Scientific Meeting (ASM)** on **13-14 July 2022** via Zoom and FB live with the theme **“PAGTANAW 2050: Agham Tungo sa Mabuting Kinabukasan (FORESIGHT 2050: Science for a Sustainable Future)”**.

The ASM is an annual activity of the Academy that serves as the leading forum for the presentation of scientific and policy research. Policy recommendations on appropriate interventions will be submitted to the Philippine government and the private sector for their consideration and appropriate action.

The keynote message will be delivered by **Dr. John L. Anderson**, president of the US National Academy of Engineering. Dr. Anderson will provide some perspective on collaborative approaches, identifying opportunities for systems thinking to guide foresight in shaping agile responses and to be more engaged in the process of systems thinking.
